DOWNTOWN *fitness*

Exercise offers incredible benefits that can improve nearly every aspect of your health from the inside out.

From helping with weight loss, strengthening bones and muscles, and lowering risk of chronic diseases, to increasing energy levels, improving memory and brain concentration and making you feel happier, fitness is essential and should be integrated into your everyday life.

Mississippi's most walkable neighborhood provides real benefits to health and wellness. Walking is a simple form of exercise that is perfect for maintaining overall physical fitness, and Downtown's the perfect place to integrate walking into your life naturally. Treelined green spaces and broad sidewalks make getting outside an everyday part of the Downtown lifestyle. Turn a morning coffee break into a quick stroll around the block. Instead of a sit-down lunch, try taking your lunch to the park and then taking the long way back to the office, or walk to the restaurant instead of driving. Trade in an afternoon smoke break for a quick meander to any of the shops you'll find located in the area.

For more tips on how to integrate fitness into your daily schedule, visit www.downtown-jackson.com/fitness.
